

Airport Design-Build Finance

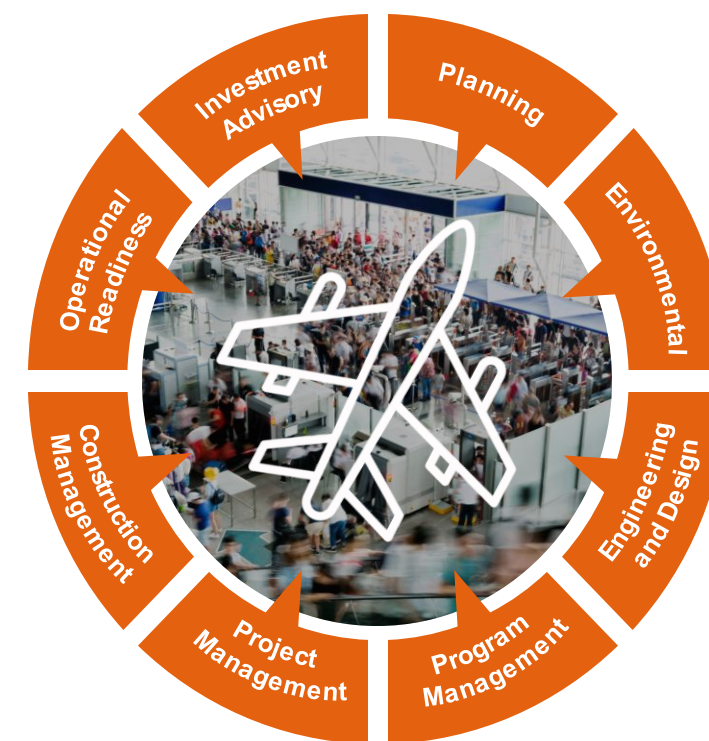

Arcadis provides strategic design, management and finance advice to airports at any global location.

We are a 30,000 strong employee design, engineering and management consultancy providing a comprehensive range of services including business advisory, planning, environmental, architecture, engineering, PMO, project and program management, operational readiness, and asset management.

We have 500+ dedicated aviation professionals within our aviation ecosystem who bring expertise in all aspects of airport infrastructure, technology, and operation. Our unique value is the knowledge and commitment we bring to sustainable outcomes, technology driven solutions, inclusive partnering with our clients and their communities, and creating a better world.

- Visioning and master planning
- Financial feasibility and risk
- Environment and zero carbon
- Progressive design and build
- Transfer to best-in-class operation
- DE&I programs for community benefit
